- Data logging for 100,000 waypoints
- Emergency dial out/SOS report
- Sleep mode to save power
- Remote configuration
- On board configuration
- Motion alarm
- Overspeed alarm
- Send/receive SMS
- Mobile phone tracking
- Phone book
- Support mobile phone tracking & web based GPRS tracking solution
- Optional tracking software

- Low battery report
- Alarm clock
- GPRS/SMS timer interval setting
- Sport mode
- Wrist band taking off alarm
- Wrist band on/off status
- Wrist band lock/ key

SPECIFICATION:

GSM/GPRS module:

Simcom GSM module

GPS module: SiRFIII 20 Channels

Update rate: 1HZ

GSM Antenna: Built-in; GPS antenna: Built-in.

Communication mode: GPRS/SMS

Protocol NMEA-0183 compliant protocol

Accuracy 1-5m

Start time Cold start: 42s Warm start: 35s

LCD size: 35 x 3.2mm

Electrical

Charge voltage 4.5~5V

Standby 15mA

Operating 80mA

Battery Li-ion 1100mAh

Charging Power DC 9-16V/1A

I/O:

Built in Microphone & Speaker

SOS button

Main function button

Power on/off button

SIM card socket

Mini USB connection

Product Size: 6.5x4.5.1.7 cm

Weight: 30K
