

ExtremTrac®

GPS Technology

GP1000

GENERAL DESCRIPTION

GP1000 is a smart mobile device with unique combination of Navigation + GPS Tracking + Mobile Phone + Mobile Computer. GP1000 can be tracked on Google map from another GP1000 tracker, or from the PC tracking map software solution, or the web based software. One GP1000 device can track any device if owner know other GP1000 device's SIM card number. However, GP1000 is a standard and advanced smart mobile phone.
